ShiftFX Invades Malta

The small island of Malta has had to endure a lot over the years. First the Ottomans, then Napoleon, the Luftwaffe, and now two ShiftFX equipped drag bikes. When native islander Sandro wanted to bring his drag bike into the sub-nine second quarter mile he looked to Biperformance for the way. Fitted onto both his Kawasaki ZX14 and ZX12R, "the shifters work heavenly good". Thanks Sandro, we wish you great success at the race track!

Orient Express Joins the Team

Biperformance is proud to announce that Orient Express of Brentwood, NY is now distributing our products in the US. With a 34-year history of delivering high-performance aftermarket motorcycle parts and engine services to the powersports communities, Orient Express brings serious talent to the table. As a key parts supplier in the US, Biperformance will now be able to reach more customers looking to boost their bikes performance.

With Orient Express comes Toronto based drag racer Jeff Bloor. Racing a Kawasaki ZX14 featuring a fully built motor, lock-up clutch, and progressive nitrous system Jeff boasts as having the fastest ZX14 at the track. Now Jeff can shave off even more time from his run with a new custom-built ShiftFX drag kit featuring an integral shift light and adjustable shift speed.
